# AI GREETING ROBOT MINI

[www.altkamul.ae](http://www.altkamul.ae)

## I PRODUCT CORE CAPABILITY

### Flexible Passibility

With a minimum channel chassis diameter of 55 cm, Mini is guaranteed to operate flexibly in small spaces.

55cm

### Multi-Robot Cooperation

When the paths of more than one Mini intersect, intelligent scheduling allows them to avoid collision without the need for human intervention.

### Interactive Capabilities

Specially developed voice and visual capabilities guarantee a first-class interactive experience. Mini detects the presence of people and takes the initiative to greet and interact with them.

## | FEATURES

### Diversified Promotion

Mini can display advertisements when customers approach. Mini's powerful voice interaction function and rotatable body ensures that it is able to carry out face-to-face conversations with customers, which leads to a better experi-

### Smart Guiding

Mini is small and navigates with ease. The minimum channel diameter of the chassis is 55 cm, which is perfect for all kinds of small spaces. Its powerful ease of navigation makes it possible to lead customers to the target position with back-

### Secondary Development
